## KASHMIR RIGHTS FORUM CUSTODIANS OF HUMAN RIGHTS IN KASHMIR

The Kashmir Rights Forum (KRF) is an informal, secular, apolitical and forward looking interactive platform highlighting human rights violations perpetuated against innocent Kashmiri population by terrorists either directly supported by separatists and their over ground workers or indirectly by sympathizers over last three decades as a result of proxywar initiated by Pakistan on our homeland.

KRF is dexterous, focused forum with overarching mission to mobilize expertise and public opinion to counter the organized attempt to violate human rights of common innocent Kashmiris of all generations by the nexus and tarnishing the image of government and security forces by certain section of media, intelligentsia and conflict entrepreneurs by flaring up allegations of human rights violations on them, thus diverting attention from the real perpetrators of these violations.

We, at KRF encourage response by likeminded or otherwise, people and organizations, on documents, articles & video content produced on multiple social media platforms by us to apprise all citizens of such violations. KRF will endeavor to expose the designs of the perpetrators by studying the past and present and producing the facts for public scrutiny as part of our research and highlight such events in present, earliest on occurrence.

## A Review of Human Rights Violations in Kashmir for the month of OCTOBER 2021

# YOUNG MAJID- A STRONG BELIEVER OF DEMOCRACY KILLED IN SRINAGAR

On Saturday Oct 2, an innocent Kashmiri was shot dead by terrorists in the Karan Nagar area of Srinagar. The civilian identified as Majid Ahmad Gojri, a resident of Galwanteng, Chattabal, Srinagar, was targeted from a very close range. The slain had been targeted with three bullets on the chest and one on his face. Terrorists had earlier on as well attacked several unarmed and innocent citizens of the valley floor which has impacted the life of a common Kashmiri citizen. Terrorists in a new strategy selectively target the citizens who dare to speak their mind, hold a strong nationalist belief and barrier the anti-national elements.

Now with emergence of security beef up, terrorists have also shifted their gears to navigate in crowded markets, wherein they target innocent

population to perpetuate their role and create a situation of uncertainty. The killing of Majid Gojri implies harsh reaction of the terror outfit- TRF for an important role he played in the society. He had chosen to come out from the side of silent majority section into a faction that raises their voice against atrocities perpetuated by the terrorists from time to time. A responsible rights holder of the Kashmiri

society, Majid was active in nation building activities, for the prejudice of which terrorists eliminated him. The intent of these terror outfits deem unfair as killing of an innocent Kashmiri is bare-terrorism in name of Jihaad, to gain wide public outreach but certainly Kashmiris have comprehended the reality and are ardent to falsify the wrong teachings in name of Islam. ■

**Terrorists in a new strategy selectively target the citizens who dare to speak their mind, hold a strong nationalist belief and barrier the anti-national elements. To hide the atrocities the prime targets include potential youth having reach and connectivity with the masses.**

## SRINAGAR CITY LOSES PDD EMPLOYEE, MOHAMMAD SHAFI TO BULLETS OF TERRORISTS

On the same day of Oct 2nd, in evening another Kashmiri civilian Mohammad Shafi Dar, 45 was target killed by armed terrorists in heart of Srinagar city. The two separate attacks in the same day followed by a grenade attack on CRPF bunker raise eyebrows over operationalization of the offshoots of the parent LeT in targeting the innocent Kashmiris. The terrorists are spreading their OGW nexus in the valley to extend their ground after various eliminations in the recent past by alert security forces. As though panches, sarpanches, and youth leaders are always under scanner of the outfits, but the alertness from forces have squeezed their space for direct outreach and common attackings. Now the ways for them to attack have been lowered but taking benefit from crowd, the public gatherings terrorists in civilian attire frisk in and mint their illicit designs by soft targetings, with the help of small fire arms. Consecutive attacks give more evidence of fear spill which at root level is aimed at narrowing the space

**The congruence in the attacks on civilians have narrowed the space that ensured the opinion sharing few years back. Brave hearts are gunned down brutally on roads, near houses, intensely in public places, maintaining the highest level of fear among masses to disturb the relationship with security forces.**

for loud voices of the respective areas. This in turn hampers the developmental process due to which hopelessness has significantly rose up. Also the prosperity among masses gets hard hit that leads to slow process of radicalization. The process keeps on toling in undue manner which at some instant come out as an outrage against elected government formation, thus in a steady way terror organizations intrude into our lives and disrupt the normalcy and peace completely. The congruence in the attacks on civilians have burnt the space that ensured the opinion sharing few years aback. Brave hearts are gunned down brutally on roads, near houses intensely in public places maintaining the highest level of fear among masses to disturb the relationship with security forces. Hence a gap has cleft in between commoners and saviours of nation not due to any animosity but due prevailing situation created by off-shoots of Pak-sponsored agencies.

# TERRORISTS TARGET CRPF BUNKER IN GRENADE ATTACK

A part from two killings in a single day armed terrorists hurled a grenade at CRPF bunker near Oxford School road area of South Kashmir's Anantnag district. However in the attack nobody was injured. These grenade attacks are mostly undertaken by the bike borne miscreants, who take benefit out of the locals walking across the busy streets. The coward terrorists violate humanitarian laws and cause huge disturbance to the shop owners and poor vendors whose earnings are directly dependent on rush in the markets. Due to incompetency to cause misery to security agencies terrorists find the way of attacking pickets and police parties as an opportunity to maintain their presence. Meanwhile, the alert forces are

always ready to tackle the situations with great valor. Every month grenade attacks are faced by our security forces yet the confidence to deal with rogue forces is seen atop.

Terrorists also target local representatives-panches, sarpanches, and youth leaders, while maintaining a gap from them to avoid the arrest by forces performing their duties on nook and corners of the valley floor for law and order maintenance which is found at risk concerning multiple off-shoots of the terror sponsors. Although the motivation behind these destructive acts is obvious, but exploitation in religious teachings has worsened the condition by a large scale.

**Short of confidence due to consistent elimination of so called Gazis, Jihaadi nexus finds it hard to break the security cover thus resort to safe method of lobbing grenades on security forces and innocent Kashmiris irrespective of their innocence, gender and age.**

## SUMO ASSOCIATION PRESIDENT SHOT DEAD BY TERRORISTS IN BANDIPORA

On October 5, in a deplorable act of violence Mohammad Shafi Lone was killed in Bandipora. The killing was third incident of terror in a single day. In the trio incidents, terrorists target killed two innocent Kashmiris and a non-local street vendor from Bihar, sending a deep shock down the spine in all sections of Kashmir valley; especially the non-Muslim community witnessed it as a whistleblower, purveying the reports about possible attacks on them. In Srinagar, famous chemist Makhan Lal Bindroo, owner of a famous clinic 'Bindroo's' was also shot dead. Meanwhile, in another terror incident near Madina Chowk Lalbazar area, terrorists brutally killed a non-local (street hawker) identified as Virender Paswan resident of Bhagalpur Bihar.

Multiple aims lie behind the scene of these targeted killings. One, creating a climate of fear to deteriorate peace of valley and hurdle the investors to spend in the industrial sector. Two, countering the narrative of government regarding the post-article situation, though agencies reached the point that normalcy had returned, and a dip in terror incidents was claimed, but the recent attacks

were focused to topple all audacious claims of government.

Adding fuel to the problem, the basic paradox of Article 370 was thrown into debate of terror heads which culminated with multiple results, some asserted assassination of non-locals could free the occupied spaces and some had built the opposite narrative to counter the emerging peace post abrogation of article 370. It is relevant to mention that an article of Indian constitution was a candy around which multiple state and non-state actors buzzed in their respective styles.

A nationalist voice has longer been silenced by the radical section of the society; the local representatives whose single aim remains prosperity and development of the society are eliminated because they envision the peace of the area in democracy. And their killing suffocates the believers in constitutional remedies and of those being taught about moderation and nation building. Such grave human rights violations by terrorists are willfully designed to facilitate uncertainty and to achieve the pre-planned goals.

**Violence from barrel of guns has resorted to killing of locals, non-locals and persons from minority community as well. However, the nationalist voices seem to be the priority of terrorists.**

## OWNER OF BINDROO MEDICATE SHOT DEAD IN IQBAL PARK SRINAGAR

Sixty-eight-year-old Makhan Lal Bindroo was shot at by the assailants from point-blank range while he was at his pharmacy dispensing medicines.

He received four bullets and was declared brought dead at SMHS hospital. A famous chemist in the area, Bindroo had been operating his pharmacy in Srinagar for many decades and was also well known for his philanthropic works.

A Kashmiri Pandit, Makhan Lal Bindroo, was one of the few from the community who did not migrate out even at the onset of militancy in 1990.

He stayed back along with his wife to continue operating his business which grew to become a trusted name in the city for quality medicines. As an intrinsic part of the Kashmiri Pandit community, he will never die from the remembrances of the people.

Shraddha Bindroo, daughter of Makhan Lal Bindroo in conversation with media said that her father may have died but his spirit would always live on. "My father was a fighter, he always said 'I'll die with my shoes on' she further added,

"You can kill one person, but you can't kill the spirit of Makhan Lal. Whoever shot dead my father, come in front of me. My father gave me education, while politicians gave you guns and stones. You want to fight with guns and stones? That is cowardice. All politicians are using you, come and fight with education"

**The congruence in the attacks on civilians have narrowed the space that ensured the opinion sharing few years back. Brave hearts are gunned down brutally on roads, near houses, intensely in public places, maintaining the highest level of fear among masses to disturb the relationship with security forces.**

Over the past three decades the Kashmiri society has been subjected to undergo a difficult phase of death, destruction and a denial of obligatory space which complicated the overall

situation of Kashmir. The targeted killing of Makhan Lal Bindroo was a worst attack on the ethos, the cultural fabric of the valley. There are around 808 Pandit families in the valley and gunning down of one prominent member is direct assault on all of them. Assailants aim at cutting the historical and sacred thread of Pandit - Muslim brotherhood, which is the very essence of the Kashmiriyat. The following attack was one major incident on Pandit community after 18 years, the last attack was documented in 2003, Nadimarg massacre.

The essence of Kashmiriyat; tolerance, diversity and harmonious co-existence has been put in danger, also the crucial aspect of Kashmir's syncretic tradition and a journey of faith were wholly subdued with the deadly ideology of terror organizations in current time. All the Kashmiris should take strong note of this targeted killing, and send a harsh note to

gun holders. The terrorists by executing such aghast terrorist operations subjugate the rights of innocent people who dream to have a Switzerland like Kashmir by playing their role in bringing the normalcy and prosperity to the paradise Kashmir. The perceptions of violence have since long wanted that valley should remain bloodbathed with terror incidents thus preventing it to be prosperous and peaceful. ■

# SIKH PRINCIPAL, HINDU TEACHER KILLED INSIDE SCHOOL PREMISES

## A SCAR ON RIGHTS OF MINORITIES HUMANITY OF THE MAJORITY

Just a day after the killing of three innocent civilians, terrorist this time ends lives of two builders of the nation. The candles of enlightenment were present in the school at the time when armed terrorists barged inside, singled them out and killed them brutally. The incident happened in Srinagar's Idgah area in Boys Higher Secondary School Idgah. The teacher died on the spot and the principal took her last breath while on the way to the hospital. Deepak Chand and Principal Supinder Kaur had only last month been practising the national anthem. The pride and patriotism instilled in the nerves, a song of diversity as a single rainbow was what duo were advising to their students. The killing of teachers is gruesome attack on education system of the valley, furthering this during the 90's some 5000+ schools including the prominent Pandit scholars, intellectuals were assassinated to intentionally lower the quality of education, and here also the prejudice of terror organizations took arousal and hence took lives of two teachers of minority community.

These killings provide us two evidences to suspect, one targeting of minority community, second to weaken the belief and revival in reverence for national entities. By elimination of these teachers

after lessoning their students of national symbols, the puzzle clarifies the debate, why the duo were targeted leaving the rest alive without any harm. The question arises, why were the rest of teachers left unharmed? Rogue forces wanted a communal tension to arise in the valley that could feed their narrative, and surprisingly no staff member would contact the security forces and thus the whole Kashmiri society failed in safeguarding the rights of the minorities. Around twenty balance teachers of the school, so called 'architects of nation and belief' remained silent and watched the slaughter as mute spectators. The Hindu teacher and Sikh Principal were involved in building

the multi-cultural, and multi-ethnic identity of the valley that amounts to the real essence of Kashmiriyat, but their assassination is a blot on the liberty of civil society. The open killing of minority based weavers of culture will have a long lasting, and post-traumatic effects minds of more than 150 students. The teachers present in premises probably have lost the right to be called as teachers, and the collective shame should be their case.

The locality of philanthropic Principal was left in deep shock while they heard of her killing, as 52 year

old Supinder Kaur had been an intrinsic believer of Kashmiriyat. She had recently bought a car to drive her sons towards school. Kaur had a deep respect for all faiths and for the same reason, she mothered a Muslim orphan girl in their locality. The locals exchanged their miseries with Supinder, such was her sincerity towards the neighborhood. Every day her routine included

a share of love and affection for the Muslims living around in the area. Though she had her two kids, but she brought up three and more with her vast heart. One Muslim orphan girl, whose deep emotional connection with Kaur was rigid than her own sons, unfortunately she got orphan once again and has no idea why her lovely mother was killed.

Her killing had a far-reaching effect on the faith of brotherhood among the majority-minority sections in the valley. As a positive indication of love, she would repeatedly insist her relatives visit Kashmir and explore the scenic beauty here. Kaur represented the whole minority in a meaningful and inclusive way to the rest of the country.

Deepak Chand, whose 3-year-old daughter had insisted him not to go, is distraught now. While his father's only crime was, he belonged to the Hindu community. For visiting Kashmir innocent Kashmiri family is now in a pall of gloom. Every section of society condemned the killings, including EJAC, Kashmir Chamber of Commerce as well. Similarly, terror outfits have been focusing on

**The killing of non-muslim teachers is an attempt to disintegrate and harm the basic fabric of Kashmiri society and essence of Kashmiriyat, that they are bringing a Pakistani culture of violence against non-Muslim members of society. Thus the whole Kashmiri society failed in safeguarding the rights of the minorities. Around twenty balance teachers of the school, so called 'architects of nation and belief' remained silent and watched the slaughter as mute spectators.**

retarding the expansion education system and development in the industrial sector of the valley. These incidents- the killing of Sikhs and Pandits as identified from last week, has retained fear and suspicion in said communities. As such, these incidents replicate day by day, involving gross human rights violations, curbing of freedom and devastation

of peace.

This is an attempt to disintegrate and harm the basic fabric of Kashmiri society and essence of Kashmiriyat that they are bringing a Pakistani culture of violence against the Non-Muslim members of society.

**SRINAGAR SCHOOL FIRING**

**मेरी मां का कसूर क्या था ?**

# TERRORISTS THROW GRENADE AT CRPF BUNKER IN SRINAGAR

On Oct 8, terrorists lobbed a grenade at a security forces bunker in the Safa kadal area of the city. In another incident two cops were injured after armed terrorists fired upon a police party in the Manzgam area of Kulgam district on Saturday, Oct 09. The cycle of violence continues in the valley with a new routine, hurling of grenades, mine blasts and targeted killing incidents. The social fabric of Kashmiri society is next in target, as such Sikh and Pandit communities stand perforated by the exposed crime of terrorists. The conflict is gripping the Kashmiriyat within terrorism's hole and disgruntling the multi-cultural identity of the valley, alienating minorities more from the ambit of brotherhood.

As the grenade was lobbed, the window panes of the vehicle sooted like smoke and charcoal. The damage to public and government property is one portion of the plan to frustrate the people with the present

government, as a common man finds no time in unlocking the deadly plans of terrorists. The unhappiness, growth in violence ultimately result in disaffection with the government, which later on culminate with the unexpected unrests like the instances of the recent past. The LG said, while addressing the police commemoration day parade at the Armed Police Complex: "attempts are being made Pakistan to disrupt the process of peace and development in J&K. our brave security forces will neutralize every terror threat."

**By throwing grenades on security forces which are easier to carry, terrorists please their masters sitting in cozy rooms in Pakistan. Our sleep is possible with their vigilant eyes prowling for the enemy and the prosperity culmination of their endless sacrifices**

Kashmiris are suffering from a trauma of these daily attacks years, no dusk arrives without causing miseries to the innocent people. The paradise is burning for irrational gains. Spate of killings of civilians in recent days has again led to unease, particularly among the religious minorities.

## TERRORISTS TARGET KILL TWO NON – LOCALS IN PULWAMA

Armed terrorists shot dead two non-local persons in the Srinagar and Pulwama districts of central and south Kashmir respectively on Saturday 16 Oct.

The terrorists fired upon the non-local Sageer Ahmad of Saharanpur UP, near Litter Pulwama in the evening and killed him in cold blood. Sageer a carpenter by profession was immediately moved to the hospital where he succumbed. With a wish to take out the family from poverty he had come to Kashmir. The killing came in less than an hour after unknown gunmen killed a non-local street hawker, Arvind Kumar Sah, near Edgah Park in Srinagar.

Lieutenant Governor Manoj Sinha, CPI (M) leader Mohammad Yousuf Tarigami, NC vice president and former Chief Minister Omar Abdullah, PDP Chief and former chief minister Mehbooba Mufti, People's conference and almost every party condemned the attack.

One wonders, what could be the fault of poor

vendors who come from various parts of the country, bear all hardships to earn livelihood for their families. Killing them in cold blood is the brutal face of terror organizations. The civilian killings are unforgivable, mindless and highly condemnable and unacceptable, and this spree of innocent civilians is unbearable.

These heinous attacks call for an unconditional condemnation from both social and political forums in the valley. Kashmiriyat can never be tainted with the

blood of innocent and those elements who covet to destroy the historical ethos of Jammu and Kashmir have undermined the strength of our cultural roots that are enshrined in a Sufi-Rishi tradition. The fringe lobby can never define the majority public sentiment. Such killings pertain to direct violation of human rights, and this abuse is extended propagation of terrorism in valley.

**The killings of non-locals by terrorist groups are an attack on rich cultural ethos, tolerance and Rishi-Sufi tradition which has been praised throughout the world. The poor Biharis had come to valley with hopes high to earn their livelihood to support their families and fight with the poverty but their dreams were shattered and their families distraught.**

# TWO NON-LOCAL LABOURERS KILLED, ANOTHER INJURED IN GANJIPORA KULGAM

On 17 Oct, in Kulgam two more non-locals were killed and another injured at Wanpoh. The duo Raja Reshi Dev and Joginder Reshi Dev belong to Bihar. Joginder Dev is survived

by his old mother, wife and three children. Chun Chun Reshi Das received some injuries and was immediately hospitalized. The valley has been clouded with grief and dismay post assassination of poor vendors who come to earn their livelihood. Extremely callous new phenomenon of killing cycle has upset the applegart. The attacks were intended especially when high impact is needed by the terror handlers. The impact needed at the initiation of the campaign or impetus has started flagging red. The soft targets with low investment risk become necessary and minorities are among the softest targets just as another variety of people-soldiers, policemen on leave.

Two aspects are important in this analysis. First is the fact that after the decisions of August 5, 2019, when India undertook a fresh robust drive against terror and combined it

with a series of other constitutional and legal measures, the back of terror networks was largely broken. The most important of these measures was the focus laid on

dismantling many networks which had thrived in J&K over 30 years, and on which the terror industry depended.

Day after day, the killings take a toll, due to which an atmosphere of gun culture and fear culture are taking boom. From the killing of teachers to non-local laborers, the terrorists are trying to create fear psychosis in the valley. The gruesome murder of poor vendors amounts to mere barbarism and utter frustration of the terrorist groups. The terrorists are

turning the valley into a blood painted state, where no guarantee of the right to life is exercised. Many of these attacks have already damaged the flow of tourists and hampered the investors from entering into the valley. KRF strongly denounces the barbaric attack on non-local laborers who lost their lives.

**Famous for the name 'paradise on earth' poor vendors and labourers visit valley for earning, that too meagre- selling Gol gappas, labouring hard through day and night, while being some hundred kilometers away from home. Killing these innocent and poor vendors is highest level of brutality.**

# INNOCENT KASHMIRI YOUTH KILLED BY TERRORISTS IN ZAINAPORA, SHOPIAN

On the morning of Sunday, Oct 24, one civilian was killed near CRPF camp in Zainapora hamlet in Shopian. The civilian identified as Shahid Aijaz from Anantnag was killed in a firing initiated by terrorists at the Babapora area of Shopian. Many such cases have appeared before us, where innocent civilians were targeted, for their walk on the streets. Unfortunately, the lanes of Kashmir had been turned into a warzone by armed organizations, which aim to disrupt the peace and stability of the region. The intent of terrorists is clear, sabotaging all peacebuilding measures, balancing the worst economy of the region. The case arises if the economy of the region is head-on, the economies and shares of terror associations disgruntle, thus the perpetuation in cases of violence is a chain, that is not allowed to break by constant instigation of target killings, grenade attacks kidnappings and

threatening to Democratic actors. The greater damage alots more power to terrorists in spread of fear and alows them to succeed in their nefarious plans. The very base of their nexus is fear, suspicion and warning which prove out to be a working tool for the parent organization like LeT, JeM, and out-shoots. The killing of a youth delves the disaffection of people into government formation, for many reasons, where hopelessness is employed as a psychological tool. For saving their lives terrorists normally target

**The disregard of terrorists killing innocent civilian in crowded place is a clear indication of their capability to resort to collateral damage and blame on security forces. Masses while falling in trap of terrorists sometimes misinterpret their security forces and show their reactions, which in reality provides terrorists a space and base for evil, illegitimate activities and most importantly the time to elope from the spot.**

innocent Kashmiris in order to divert their attention from the encounter sites. Here also, masses sometimes misinterpret their security forces and show their reactions, which in reality provides terrorists a space and base for evil, and illegitimate activities. KRF condemns the killing of a gullible civilian, who left behind a family and dependents.

# TERRORISTS LOB GRENADE ON POLICE STATION IN KAKAPORA PULWAMA

On the evening of 25 Oct, terrorists lobbed a grenade towards security forces in Kakapora, Pulwama district. The grenade was hurled towards police station Kakapora, however, it exploded outside and there was no loss of life or injury in the attack. Grenade attacks are turning as a meek effective tool by terrorists to avoid confrontation with forces. Upon lobbing terrorists flee away from the spot, and hurl the small explosive in their targeted direction. More so, several lives are lost in these terror attacks that have been used as a tactic for the propagation of fear and suspicion ultimately resulting in the destabilization of the economy, and harming the peace process in Kashmir. The damage is uncountable on either ends, no introspection was ever done by the terrorist groups to reduce the activity and let the people take a sigh of relief.

**Attack on police station is an instance of highest degree of terrorism. Rogue forces want to worsen the law and order situation of Kashmir to perpetuate their unlawful activities and forbid Kashmiris of their rights.**

The misery of people is even deeper, who lose their bread earners, sons and daughters in deplorable acts which are against the humanitarian law. The rogue forces are prime cause of the underdevelopment and loss of human resource. With the grenade attacking we have lost a huge majority who were highly capable of changing the fate of Kashmiris. The doctors, engineers, political scientists and politicians we lost in the game of guns have deprived us of a potent leader. The separatism would have eliminated if a towering leader was there to counter their ideology.

Grenade attacks are maintained as a consistent maneuver of terrorism-related activities, avoiding their traceability. The talk of concern is constant human rights infringements by terrorists through target killings, grenade attacks and life threats. ■

# GRENADE ATTACK IN JAMMU AND KASHMIR'S BANDIPORA, SIX CIVILIANS INJURED

In a low-intensity explosion, a woman among six innocent Kashmiris were injured in the Sumbal area of north Kashmir's Bandipora district on 26 Oct 2021. Upon investigation, hospital authorities identified the injured as Mushtaq Ahmad Bhat of Safapora, Tasleema wife of Abdul Hameed Malla of Markundal, Faroz Ahmad son of Bashir Ahmad, Mohammad Altaf of Maloora, Faisal Ahmad of Safapora and Abdul Hameed Malla. Today marks the historical event when the instrument of accession was signed with the Indian Union by the Kashmiri leaders way back in 1947, the explosion came on its anniversary. As of now, six homes are crying with utmost suffering and this story goes far beyond grief and pain. Terrorism has taken the happiness of valley on a lease, human rights violations intensify due to the repercussions of frustration in terror outfits. The developmental projects, drives against corruption but this continuity in terror activities

**Taregting innocent kashmiris seems to have become a norm and priority of the terrorist groups. The economy from sufferings of people is extracted by groups operationalized from Pakistan and people are left in utter pain. Many people loose their body parts and are hadcapped for lifetime.**

have driven the valley away from an investment sector. The terrorist activities must be condemned in one strong voice. A collective response is badly needed to thwart the harm and destruction to human resources and the economic stability of the valley. The terror networks run by a plethora of over ground workers (OGWs) help to shore up the terror. While terrorists were regularly eliminated, these networks thrived and continued to support the creation and functioning of the replacements which were provided by recruitment or infiltration. The networks also had academic, financial, media, ideological and legal linkages. Once the networks got hit, the chances of revival of terror started to dwindle. It is important for the ISI to retain these networks and back them with intermittent high-profile acts to project relevance of separatists and terrorists. High-profile acts are not easy to come by with the dragnet laid by the security forces.

1. There have been Twelve incidents of human rights violation by terrorists in Kashmir valley in the month of Oct 2021.

- (a) 06 Innocent citizens and 02 Security forces personnel suffered injuries during these attacks.
- (b) 12 Innocent citizens lost their lives in terrorist violence in the month of Oct 21.

Incidents	Civ Deaths	Civ Injured	Police / SF Death	Police / SF Injured
12	11	06	Nil	02

- 02 Oct 2021- Majid, a strong believer of democracy killed
- 02 Oct 2021- PDD employee, Mohammad Shafi killed in Srinagar
