

# KASHMIR RIGHTS FORUM

CUSTODIANS OF HUMAN RIGHTS IN KASHMIR

The Kashmir Rights Forum (KRF) is an informal, secular, apolitical and forward looking interactive platform highlighting human rights violations perpetuated against innocent Kashmiri population by terrorists either directly supported by separatists and their over ground workers or indirectly by sympathizers over last three decades as a result of proxy war initiated by Pakistan on our homeland.

KRF is dexterous, focused forum with overarching mission to mobilize expertise and public opinion to counter the organized attempt to violate human rights of common innocent Kashmiris of all generations by the nexus and tarnishing the image of government and security forces by certain section of media, intelligentsia and conflict entrepreneurs by flaring up allegations of human rights violations on them, thus diverting attention from the real perpetrators of these violations.

We, at KRF encourage response by likeminded or otherwise, people and organizations, on documents, articles & video content produced on multiple social media platforms by us to apprise all citizens of such violations. KRF will endeavor to expose the designs of the perpetrators by studying the past and present and producing the facts for public scrutiny as part of our research and highlight such events in present, earliest on occurrence.

## Introduction

Every year, the month of May witnesses the onset of spring with moderate increase in temperatures and decrease in snow clippings over the mounts, in dense forests along the LoC. Taking advantage of the season terrorists sneak in to continue their venomous plans of smoldering their game of slaughtering the innocent Kashmiris with no fraction of

mercy for the women as well as children. This article is an attempt by researcher scholars at Kashmir Rights Forum to highlight the extreme cases of atrocities on innocent Kashmiris from May 2000 to May 2021. The primary endeavor has been to only highlight to the world specific cases of human rights violations and severe atrocities committed by terrorists on innocent Kashmiris particularly in the month of May in period extending over last 12 years. The compilation shall be of foremost use for the human rights activists to open their eyes on the other side of the Kashmir, who had taken subsequent choices to fix their lenses on anti-terror operations, blaming casual drills of forces as an attempt to suppress the Kashmiris, while remaining silent and taking no responsibilities of mindless killings carried out by terrorists through these years of dismay. We at Kashmir Rights Forum have set the sides open to decide, whether the damage caused by terrorists-separatists-OGW nexus is an intentional attempt at suffocating the innocent Kashmir, causing them utmost sufferings or, anything given the name of holy Jihad where naivety of Kashmiris had been exploited through three decades of indoctrinated cum forced enforced violence.

From massacring the whole family including the innocent little children to slaughtering the women in name of Jihad, month of May over last 12 years has snapped the harshest memories for innocent Kashmiris. The frontier districts saw a larger dent in human rights abuses, including forced disappearances followed by throat slitting to exemplify the animalistic behavior of the Pak

backed terror outfits. The indoctrination by the extremist religious heads played their part in massacre of a generation of Kashmir. As armed forces has been a chief source of employment and youth engagement in valley, targeted killings of innocent Kashmiri soldiers on leave because a new pattern. A large chunk of victimized

population has been facing the wrath of terrorism even today, left without any bread earners and forcing them to involve into various socially inappropriate activities, while the basic raison d'être would never be stressed upon, or spoken about that deafening silence about the terrorist atrocities on local Kashmiris had created larger voids than ever before.

## The May Month Tornado

The fears grips through the valley, especially in the month of May, when the terrorists start their ill plan to attack the soft targets. Now the responsibility lies upon the civil society and the intellectuals of the Kashmir to spread and expose the acts of violence against local Kashmiris perpetrated by the terrorists. The resultant break in the economic activity has paused the developmental projects that should have been completed much before.

Our approach (i.e., the local Kashmiris) to bring the atrocities of terrorists in limelight would definitely expose the largely hidden narrative of systematic subversion of the Kashmiri society. As terrorists hide for months to survive from the freeze of the winter, they would show their sneakers only in month of spring, in order to arrest the peace and tranquility in the valley Kashmir. Their main aim remains to throttle the daily lives of the innocent Kashmiris, who have been surviving the harsh winters.

Since we have been divulging into studying the whole network of killings and their relation to the present day attacks upon Kashmiris, we have tried hard in revealing all the information at hand to expose the handi-work of the nexus and their relation to the older outfits. We learnt that many extinguished outfits have evolved in tactics to suffocate the Kashmiris further. KRF approached to put before the intelligentsia, the hidden pages of the Kashmir's bloody history written with the AK's and revolvers of the terrorists through three decade of violence, engulfing two generations of fertile minds that could have been Abdul Kalam or, Dr Radhakrishnan.

<b><u>S No</u></b>	<b><u>DATE</u></b>	<b><u>EVENTS</u></b>	<b><u>PLACE OF ATROCITY</u></b>
